The Team Science Leadership Training is a three-day residential workshop for mid-career or senior faculty to develop skills for managing collaborative, interdisciplinary, and complex projects. Key elements of the training include: building and leading diverse and productive teams, project management skills, strategic planning, and communications.

ABOUT THIS TRAINING

This workshop is open to faculty or professionals in STEM fields from New Mexico academic institutions or national laboratories.

ELIGIBILITY

Lodging, meals, and training materials will be provided. Travel reimbursement may be available. Space is limited.

DETAILS
